

Mariam Hesham Yehya

Graphic Designer

Cairo, Egypt | +201064508966 | mariam.heshaam159@gmail.com

Objective

Motivated and creative third-year Graphics and Multimedia student at the Arab Open University (B+ GPA), with experience in branding, animation, game design, and web design. Passionate about visual storytelling and innovative digital experiences. Eager to contribute artistic and technical skills to dynamic media projects while gaining valuable hands-on industry experience.

Projects

Logo Design Projects – *Adobe Illustrator*

- [Logo Design Projects Link](#)
- ❖ Created a diverse range of logo types for branding purposes:
 - **Kufi Arabic Font** – Custom Arabic typography design.
 - **Word Mark & Letter Mark** – Text-based logo designs.
 - **Two Combination Marks & Icon Logo** – Integrated symbols and type to represent brand identity.

Visual Communication & Digital Imaging – *Adobe Photoshop*

- [Branding Projects Link](#)
- [Photoshop Projects Link](#)
- ❖ Developed a range of promotional and artistic visuals demonstrating concept development and visual storytelling, including:
 - Posters, billboards, and social media content.
 - Advanced photo editing: image collage, clipping mask, manipulation, double exposure, glitch effects.
 - Creative series like *Animal Fashion* and *Storytelling through Imagery*.

Digital Art Project: “Goha & The Lost Donkey” – *Adobe Photoshop*

- [Art Book Project Link](#)
- ❖ Produced a narrative-based digital illustration inspired by traditional folklore, focusing on character design and composition principles.

Typography Design – *Photoshop & Illustrator*

- [Typography Poster Projects Link](#)
- [Typography Font & Logo Projects Link](#)
- ❖ Designed expressive typography posters and custom fonts/logos, blending visual form with written communication for impact and readability.

UI/UX Design: Smart Parking App – *Figma*

- [Smart Parking App Design Link](#)
- [App Wireframe Link](#)
- ❖ Developed an interactive mobile application prototype for a smart parking solution. Focused on user-friendly interface design, intuitive navigation, and functionality to improve urban mobility.
